Subject: Option Descriptions

We are requesting your review of the attached revised option descriptions. This is the fourth of several sets of option descriptions for which we will be soliciting your comments over the next few weeks. Because of the large number of descriptions that are being refined and the timeframe allotted, we thought it advisable to transmit them in several sets. The "extended BDOC staff" is beginning to incorporate previous comments, as appropriate, in this set of descriptions for your review. Please note that any differences in description formats will be taken care of prior to review by the Work Plan Coordinating Group. We request that you give priority to options developed by your Technical Advisory Committee to ensure that the description is consistent with the TAC's original intent. You may wish to have your staff review and comment on descriptions from other resource areas.

We would appreciate receiving your comments by close of business Friday, March 31, 1995. This would assist us in revising additional option descriptions within the timeframe that we are allotted. If you foresee a problem meeting this target date or have any questions, please call me at 657-2666 or contact Victor Pacheco of BDOC staff at the same phone number.
